HurdaHane

We are **HurdaHane**, a handcrafted-wood design studio in Istanbul. Our mission is to create the highest quality designer furniture, inspired by traditional techniques, designed for today. We focus on making unique, custom designs for each customer and space we are invited to, with a mindset of how to solve the problems and improve the life quality of the space.

UNIQUE DESIGNS

Created for its owner and location, our designs are made to satisfy the needs, tastes, and wishes of our customers. All our products are unique for their place, this comes with the challenge of solving new details and problems in each and every product. We embrace this challenge with vigor and pleasure, while continuing our design journey.

NATURAL TEXTURES

We prefer to make most of our designs from solid wood. With the delicacy of handcrafting, we use modern and traditional techniques to put solid wood pieces together. Our process brings out the natural grain and knots found in the wood enhancing the final natural feel of the product.

HOW DO WE WORK

OFFICE AND WORKSHOP

Our office (hangar) in Istanbul is a representation of our design approach. In this open space we, architects, designers, and craftsmen, come together to design and create carefully thought, practical yet aesthetic wood products with immaculate details and finish.

MULTIPLE SCALES

Our practical solutions and products come in various scales. We aim to design objects that are constant parts of our daily lives, from small personal items to big-scale furniture.

JOINT DETAILS

All the details we make are a part of our design process. Even though most details are covered and unseen under clean finishes, the making of a wood furniture is also a design matter for us.

ABOUT US

HurdaHane's founders' architect **Seda Dedeođlu Sezer** and designer **Nevzat Ertuđ Sezer** lead the design and production process of all projects. Since the establishment of HurdaHane in 2014, the couple is working towards creating quality spatial solutions on every scale. From extensive projects to small details HurdaHane is striving to build its brand around sustainable and modern universal designs.

LIVINGROOM

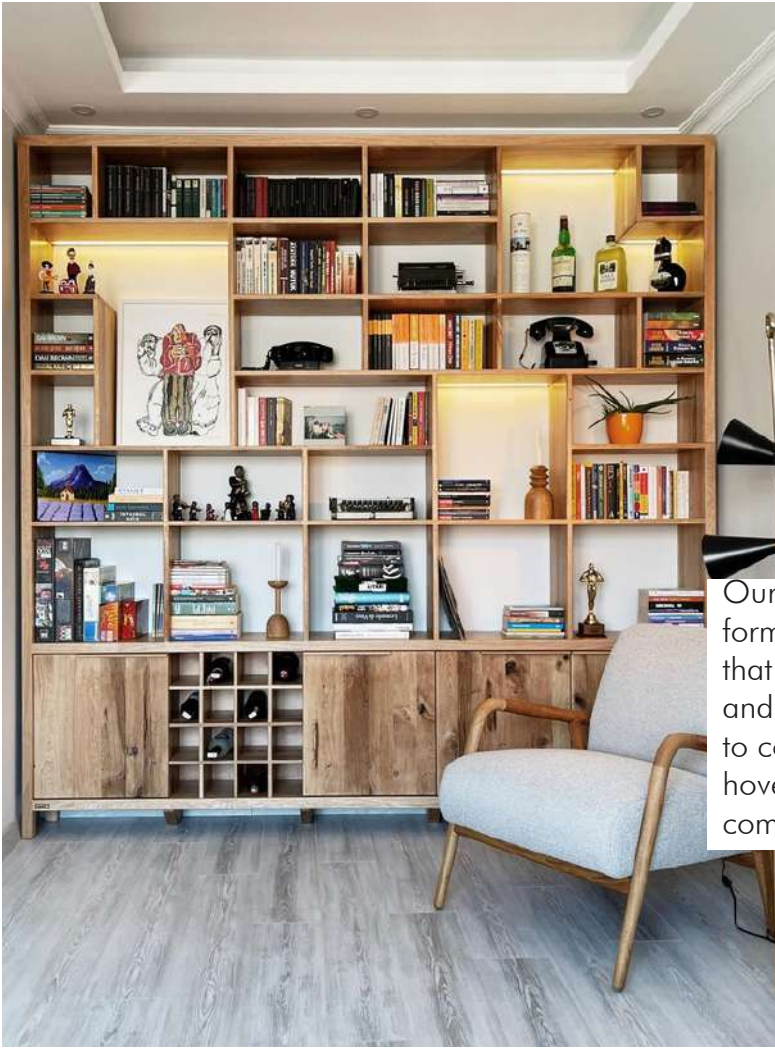

Our living rooms are one of the most important spaces in our daily life where we rest, eat, and socialize. In our living spaces, we represent ourselves in unique and personal ways from hobbies to works of art. HurdaHane's designs aim to fit into this personal space creating harmony between function and flexibility.

BOOKCASES

Bookshelves can be in different size and scale. What is important for us is to create visual appearance that reflects your personality and lifestyle in decorative way, instead of having a place to store your books, based on your needs.

SOLID OAK BOOKCASES

Our solid wood bookshelves can be formed according to our customer's needs that transform dens shelves to dynamic and spacious shelves for you. It is possible to combine cabinets, wine racks and hovering shelves in order to create custom combinations for each customer.

METAL BOOKCASES

Metal structure with its elegant slim but sturdy design brings lightness to solid wood shelves. Black mate finish of the metal profiles and warm colors of the wood, combined with the hidden LED strips, creates a beautiful contrast. The furniture itself will become a dimmed light source in the living room, creating a cozy atmosphere.

BARS

The liqueur bottles either for enjoying daily or collections will be the center of attraction in HurdaHane 's bars. Combination of wood, metal and glass brings warmth and elegance to the atmosphere of the room while hidden lights shine behind the colorful liqueurs and bottles.

HOME BARS

Bringing together the needs of the customer and the desired concept for the space, we design different types of bar furniture in different materials and sizes. Our designs vary from bars that can store big bottle collections to small spaces to store a nice bottle of wine. Different types of glasses and other accessories are integrated into the design upon wish.

COFFEE TABLE

Coffee tables are the best sidekicks of our sofas. They can become dining tables, bookshelves, storage units, chairs and more when they are designed properly. From decorative purposes to functional uses we design coffee tables according to your needs and sizes that will suit your room in a best way.

COLLECTOR TABLE

Coffee tables can have drawers and shelves or can be in a simple light structure, designed according to our customers needs. Our collector coffee table is specially made for people who love exhibiting their valuable collections and sharing their hobbies.

DINING TABLES

Dining tables are one of the biggest visual focus points in the room. The solid wood patterns brought out on the surfaces, showcases the end grain for natural feeling which will give nicest warmth to any room.

SOLID WOOD TABLES

Dining tables are simple yet functional structures, the simplicity of the form allows many variations in details and finishes. Carefully carved and manufactured joinery details are used as design elements in our tables. Details made with traditional techniques with modern twist creates a unique table for different styles.

SOFAS

Sofas are bold furnitures that shape and define the living room. We do our sofa designs taking in consideration of household with pets without compromising from comfort. They also give you more than they promised with the little hidden design surprises inside.

PINOKIO

Pinokio sofa is full of sweet lies! Like Pinokio's growing nose our sofas cushions will come forward to extend the seating area. The console table behind the sofa will act as a secret compartment for the cushion to hide in. Extension can be used for a comfortable seating experience or even for a spare bed.

CONSOLES

Consoles are multi-functional furniture , from decorative purposes to storing units . They can be widely used in living rooms, bedrooms and bathrooms. Console tables are one of HurdaHane's most loved design object.

FOR STORAGE

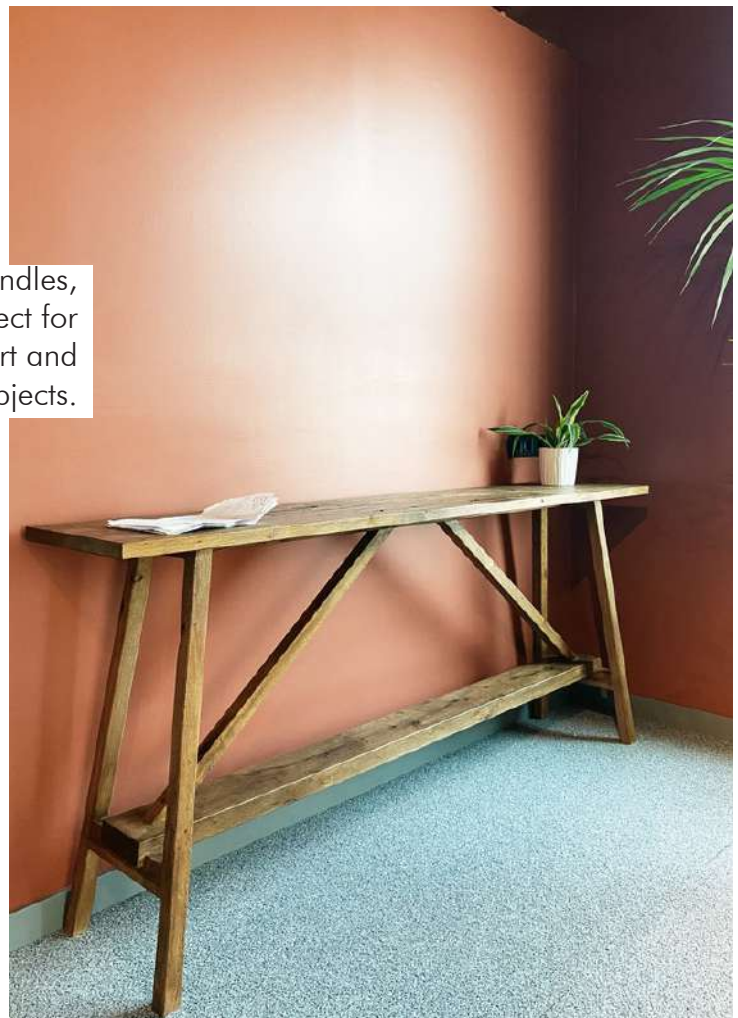

Consoles are perfect for storing items and showcasing your valuable objects. You can also use them as counter tops next to dining table or behind a sofa. As a side piece HurdaHane consoles are versatile, aesthetic and functional.

DECORATIVE CONSOLES TABLES

With different joinery details, handles, accessories console tables are perfect for arranging plants on, decorating with art and objects.

BEDROOM

NIGHT STANDS & DRAWERS

Natural solid wood brings warmth, texture and coziness to bedrooms. Nightstands and drawers are designed to hold all your belongings without being bulky.

NIGHTSTANDS

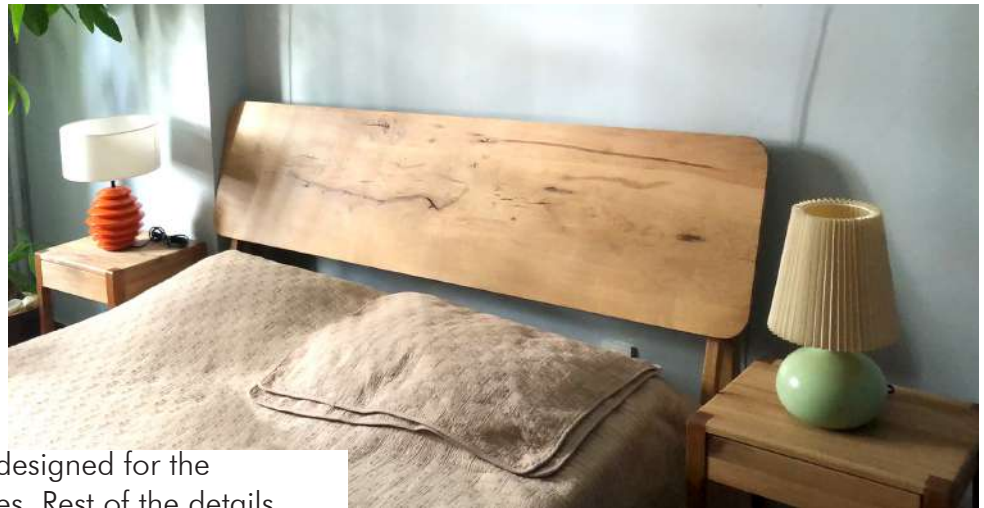

Nightstands can have a single shelf, drawers for people with limited space or incorporated into the head bed for a minimal finish. All these aspects are decided considering the needs and necessities of the customer and space.

BEDS & HEADBOARDS

Beds as both decorative and highly functional furnitures will determine the mood of the bedroom. While comfort of a bed is at most importance the aesthetic value that comes with it will help us relax and find comfort.

BEDS

Our bed frames are designed for the standard mattress sizes. Rest of the details are decided by taking in consideration of the bedroom size, choice of style and budget.

STUDY DESK

Since home offices have become a part of our lives comfortable yet small study desks can become lifesavers. Our custom designs provide exactly what our customers need from tiny functional desks to heavier classical models.

FOR PROFESSIONALS

Study desks can be customized according to the screen-size, cable ducks, instruments and variety of accessories are necessary for the job. Function and beauty of wood comes together in these desks for professionals.

CUSTOM MADE

Not all houses are lucky enough to have a separate will study room but we can create a study corner in every hose with our custom made desks and shelves.

MIRRORS

Mirrors can fit in every room of the house, they brighten the space and make the room feel more spacious. Nevertheless HurdaHane's mirrors can do much more than that.

MIRRORED SERVANT

Mirror butler will save a lot of space and cover all the clutter of a cloak room whether its in the entryway or a bedroom. As Hurdahane's special design Mirror Butler is an elegant and flexible solution for any dressing room as well.

CIRCULAR SOLID WOOD MIRROR

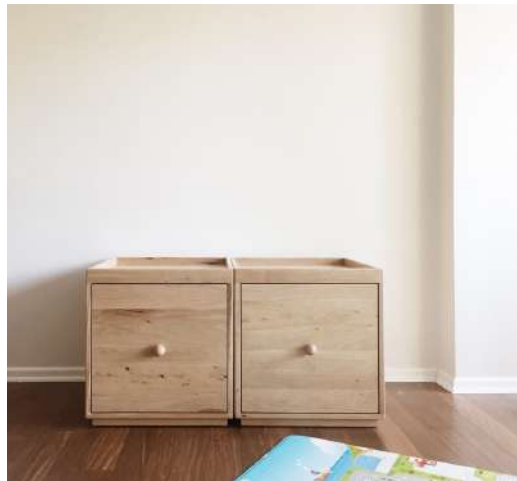

Simple in shape but complex in detail our circular solid mirror shows beautiful joinery details while bending the wood for a soft, circular finish.

KID'S ROOM

Kid's need special furniture for their great imagination, fast changing needs. HurdaHane aims to provide kids with furniture that can nourish their imagination and self- confidence.

LEGO CUPBOARDS

Our Lego Cupboard collection is based on Montessori education system. With the help of the different size and functions of the cupboards kids can make their own decisions about how to use them. Modular design will allow the cupboards to transform as the kid grows.

OUTSIDE THE BOX

Fun is always important when it comes to kids. Our kids furniture try to get in the creative mindset of a child by allowing new and unexpected uses and think outside of the box. We aim to create function without dictating it in cavities, boxes, and shelves by geometrical shapes.

DRAWERS

Stacked up drawers provide nooks and corners for customization with toys. The design itself will become a toy like structure for a kid. Although it can store big volumes of clothing, proportions of the drawer will be suitable for a child to use.

BOOKSHELF

Is it a bookshelf or a train?
We leave the answer of
this question to kids. Our
bookshelf matches the
energy of a kid with its
dynamic creative design.

NATURAL VENEER & MDF WORKS

We prefer using natural veneer for projects that are big in size and heavy in weight. If it is done with solid wood these furniture can become too heavy to carry. With combining veneer and colored MDF boards, we can provide affordable alternative furniture designs.

MDF

Veneer is an economic alternative to solid wood. Because of this we prefer using it in bigger projects like kitchen cupboards, wardrobe systems, storage units.

HANDLES

Veneer and MDF boards have flexible uses. We prefer experimenting with 3D CNC to design and make our handles while using color to enhance them.

VENEER

Thanks to its natural texture veneer is a great alternative for solid wood. We combine solid wood details like handles and legs with veneer to enhance the natural feeling of the wood.

SOLID WOOD DETAILS

We like the complete veneer and MDF board furniture with solid wood details.

ACCESSORIES

Accessories are one of the most important aspects of a furniture. In our wardrobes we prefer using the highest quality hinges and rails. Design of the interior and all accessories are made according to the customers needs and wishes.

MDF

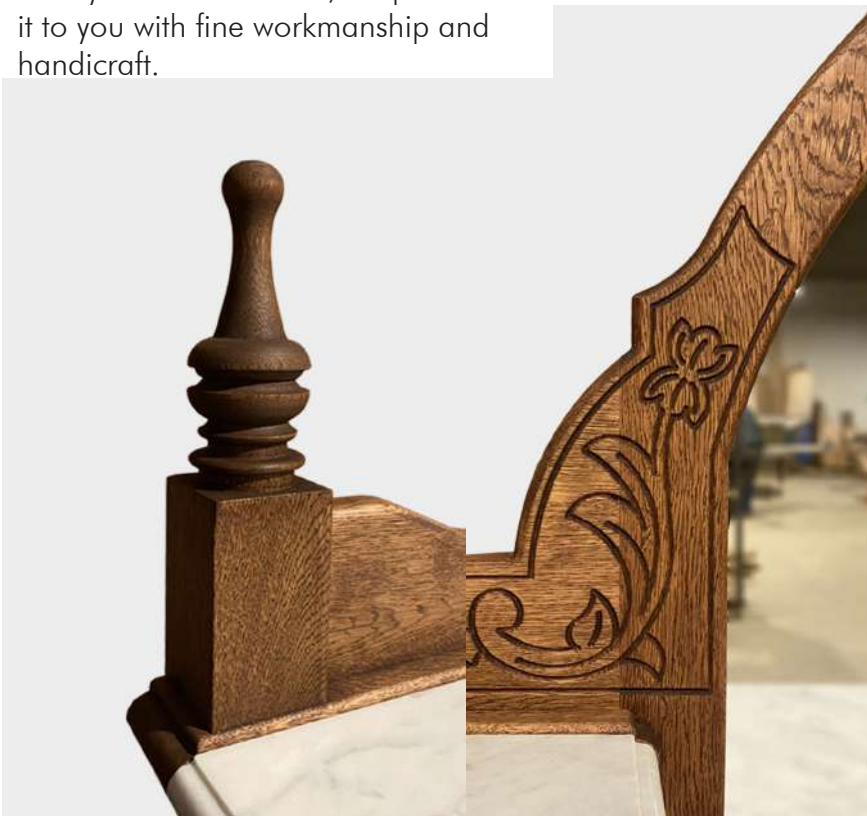

Big bedroom systems can easily be assembled on site with the help of the material and knowledge of the qualified craftsmen in our workshop.

PERIOD FURNITURES

We also process wood with details from different periods. Regardless of the style of the furniture, we present it to you with fine workmanship and handicraft.

DECORATION

HurdaHane designs furniture for people and their living spaces. Our plants, pets, accessories are an inseparable part of our living quarters. With these small but functional designs our aim is to bring the warmth of wood and quality solutions designs in every part o your life.

PETS

A lot of furniture and new objects may enter our lives after adopting a pet. As a workshop, which loves animals, we want to make our pets and their owners as comfortable as possible with our designs.

Our solid wood, food bowls are finished with the highest quality coatings that are safe for human and pet health, with UV resistance and water repelling properties. Beds and food bowls are also customizable and they can be monogrammed.

FOOD BOWLS

HOBY

HurdaHane also design smaller objects that bring life to many hobbies, from flasks to cigar cases and small speakers for phones .

CIGAR CASES

Natural solid oak and walnut cases are used as cigar holder. Their natural patina of the cases compliments the taste and feeling of the cigar while making it a pleasure to carry around.

These sleeves are carved out by hand in exact measurements of the cigar that they will hold. The exterior finish is made with high end wood oils.

CIGAR SLEEVES

SPEAKER

With solid wood speakers it is possible to enhance the voice of a phone without the need of a plug.

CUSTOM BOOK COVERS

In order to make each piece unique, we offer to carve any desired pattern or name on our specific products like bookcases, boxes, and decorative elements that can be produced from solid wood or walnut tree.

LIQUEUR CASES

For special gifts, and bottles HurdaHane makes handmade solid wood boxes. Our cases present the bottles with a natural and rustic approach while bringing out the elegant lines of glass liqueur bottles.

LOG CASES

Hand carved logs for the liqueur of our customers choice, our log cases stay in their most natural and unprocessed form which make them a unique and impressive gift. Wood flasks are protected against liquid damage by special safe for health varnishes.
